

Rahul Arora

DATA SCIENTIST

[My Portfolio](#) | rahul.arora0603@gmail.com | +91 9649799499 | [Github](#) | [Linkedin](#) | [LeetCode](#) | Jaipur, India

Professional Summary

Data professional with experience working as a Data Science Trainer and Consultant at Skill Circle. Skilled in Python, SQL, machine learning, and data visualization tools such as Power BI. Experienced in building end-to-end data science projects including recommendation systems, NLP models, and AI-powered web applications. Passionate about applying data-driven techniques to solve real-world problems.

Experience

Data Science Specialist and Consultant

SkillCircle Institute, Gurugram | Dec 2024 – June 2025

- Delivered **40+ training sessions** on Python, Data Analysis, Machine Learning, and Data Visualization tools to batches of **20–30 students**.
- Created **10+ course modules** and **10+ hands-on projects** covering real-world Data Science applications.
- Mentored **60+ students** on capstone projects, model development, and deployment best practices.

Education

- Master of Computer Application (MCA)** | Manipal University, Jaipur Online | 2026 - 2028
- Bachelor of Business Administration (BBA)** | St. Xavier's College, Jaipur | 2019 - 2022
- Senior Secondary (Commerce & IP)** | Maheshwari Public School, Jaipur | CBSE Board | 2017 – 2019 | **91.4%**

Projects

OmniFeed – Unified AI/Tech Content Aggregator

- Developed **OmniFeed**, a full-stack content aggregator app using **FastAPI, Uvicorn, and Bootstrap**, integrating multiple sources (Reddit, News, Research Papers, Medium, YouTube).
- Designed a scalable, **modular architecture** with clean **API endpoints** and a dynamic frontend for smooth user experience.

AI Interview Preparation Coach (Gemini, Streamlit)

- Built an AI-powered interview preparation coach** using **Gemini API and Streamlit**, simulating real interview scenarios with dynamic Q&A.
- Implemented **role-specific question banks, mock interviews, and feedback generation**, enhancing candidate readiness for Data Analyst/Scientist roles.

Brain Tumor Prediction using ResNet-50 (HuggingFace Deployment)

- Developed a **ResNet-50** CNN model to classify **MRI scans** as tumor or non-tumor.
- Applied image preprocessing, augmentation, and model optimization for high accuracy.
- Deployed the model on [HuggingFace](#) for public usability (academical).

Certifications and Achievements

- [Google Data Analytics Certificate | Coursera](#)
- [Data Science | Internshala Trainings](#)

Skills

- Data Skills:** Data Cleaning, Web Scraping, Feature Engineering, Machine Learning, Deep Learning, Computer Vision, Data Storytelling.
- Tools:** Python, MySQL, Excel, PowerBI, Javascript, Jupyter.
- Libraries and Frameworks:** Pandas, ScikitLearn, Matplotlib, NumPy, OpenCV, FastAPI, Tensorflow, HuggingFace Transformers, Mediapipe, PIL.
